

RUNNERS-UP

Category: Consumer Electronics

Product: Dancall 600 cordless telephone

OEM: Dancall Telekom A/S

Design firm: IDEO Product Development — *For more information, circle 145.*

Key project players from IDEO Product Development: Nicholas Dormon, senior designer; Andy Deakin, model maker. **From Dancall:** Bent Gøbel, mechanical engineer / manager, product engineering and design.

Key suppliers (for more information circle numbers):
 Asia Matrix, Ltd. (plastic parts) **146**
 Murata (filters) **147**

Mitsubishi Electric Europe GmbH (microprocessors, ICs) **148**
 Philips Components, Ltd. (display) **149**
 Rechargeable Products, Ltd. (batteries) **150**

Category: Commercial

Product: InTouch electronic survey stand

OEM: InTouch Survey Systems, Inc.

Design firm: The Design Workshop — *For more information, circle 151.*

Key project players from The Design Workshop: John Tutton, principal; Todd Arnold, intermediate industrial designer/project leader; Bjarki Hallgrímsson, senior industrial designer; Richard Amstead, model builder. **From InTouch Survey Systems:** Peter Andrews, president.

Key suppliers (for more information circle numbers):

Indalex (urethane foam parts) **152**

RLD Industries (paint finisher) **153**
 Sentry Precision Sheet Metal, Ltd. (sheet-metal components) **154**
 Starlight Molded Products (urethane foam parts) **155**

Category: Majors

Product: IntelliSense™ dishwasher — *See April issue of AM, page 39, for details on this product.*

OEM: Maytag Corp.

Key project players from Maytag: Darrin Manke, industrial engineer; Doug Gardner, Randy Cooper, Charles Pille, Mark Cracraft, and Mitch Corbett, senior design engineers; Mary Kennedy, research, home economist; Susan Altemeier, design, evaluation technician; Evelyn George, manager, product testing laboratory; Frank Nekić, manager, laundry and dishwasher product planning; Barry Tuller, senior design engineer; Tom Johnson, manager, dishwasher design engineering; Pam St. John, manager, controls engineering; Nedra Herr, supervisor, design evaluation.

Key suppliers (for more information, circle numbers):

Avery Label Group (label) **156**
 Enterprise Electronics Corp. (transformer) **157**

Category: Medical

Product: Compac Micro V personal centrifuge

OEM: Denver Instrument Corp.

Design firm: Design Continuum, Inc. — *For more information, circle 163.*

Key project players from Design Continuum: Luis Pedraza and Noelle Dye, principal industrial designers; David Chastain, director of engineering; Greg Hunter, principal mechanical engineer; Drew Moore, mechanical engineer. **From Denver Instrument:** Mitch Houston, product manager; Howard Cano, electrical engineer; Steve McCormick, manufac-

Micro Switch, Div. of Honeywell (sensors) **158**
 Northern Engraving Corp. (facia) **159**
 Plastic Products Co. (mounting plate) **160**
 Robertshaw Controls Co. (electronic controls) **161**
 Worthington Custom Plastics, Inc. (control panel) **162**

turing engineer; and Mike Glidden, documentation specialist.

Key suppliers (for more information circle numbers):

Lucas Duralith (membrane keyboard) **164**
 Phillips Plastics Corp. (housings) **165**
